

Translated NBI Fields
8/7/2014
by GFC

NBI Item No	BPO Item No	LP Item No	Field Name	Notes
58	1663	WB76-63	Deck Condition	NBI uses N = not applicable, 9 = extremely good condition WSBIS uses 9 = not applicable, and highest condition = 8 Applies to NBI Items 58-62
59	1671	WB76-71	Superstructure Conditon	
60	1676	WB76-76	Substructure Conditon	
61	1677	WB76-77	Channel Condition	
62	1678	WB76-78	Culvert Condition	
21	1019	n/a	Owner	Selected codes added and removed to better reflect Washington State. Applies to NBI Items 21 and 22
22	1286	WS72-86	Custodian	
3	1021	n/a	County	(WSBIS Code x 2) - 1 = NBI code
2	1274	WB72-74	Region	WSBIS codes NW, NC, OL, SW, SC, EA translated to 01 through 06 respectively in NBI.
33	1291	WB72-91	Median	WSBIS added several codes to cover median cases not listed in NBI.
35	??3102??	WB73-102	Flared Flag	WSBIS codes Y or N, NBI codes 0 or 1
110	1489	WB74-89	National Truck Network	WSBIS codes Y or N, NBI codes 0 or 1
102	1490	WB74-90	Lane Use Direction	WSBIS expanded NBI definition to cover reversible lanes
107	1546	WB75-46	Deck Type	WSBIS expanded NBI definition to cover more deck types
70	1660	WB76-60	Operating Level	WSBIS code N to indicate not applicable; NBI has no code for this.

Fields treated differently by BPO and LP applications

5A	1432	WB74-32	Record Type (on-under code)	WSBIS 0 code indicates "neither on nor under"; NBI has no code for this.
13A	1467	WB74-67	LRS Route	WSBIS will use a 12 digit code, with last 2 characters truncated for NBI submittal. LP will use mask as needed.
11	TBD	WB74-40	LRS Milepoint	WSBIS will use LRS_traffic_flow and retain traffic_flow for non-NBI use. LP traffic_flow data migrated to LRS_traffic_flow.
37	1292	WB72-92	Historical Significance	See Historical Significance Specs
n/a	TBD	n/a	HAER	See HAER Specs
28B	1354	WB73-54	Lanes Under	WSBIS will maintain existing BPO system - lanes_under_qty in tblCrossing.
various	?	?	Inspection Types	WSBIS will retain existing inspection types in BPO database, but can expand to accommodate LP as needed.
various	?	?	Report Types	WSBIS will add FETR report type, drop INDH report type - LP will switch to INDP currently in use by BPO.
63	1551	WB75-51	Operating Rating Method	WSBIS will match FHWA coding guide in all respects. LP will provide translation.
65	1554	WB75-54	Inventory Rating Method	WSBIS will match FHWA coding guide in all respects. LP will provide translation.

Proposed Improvement Fields - BPO created new table but no translation

75A	1844	WB78-44	Type of Work Proposed	WSBIS will use Proposed Improvement Specs document.
75B	1846	WB78-46	Work Done By	
76	1847	WB78-47	Proposed Improvement Length	
94	1869	WB78-67	Structure Cost	
95	1873	WB78-73	Roadway Cost	
96	1861	WB78-61	Total Project Cost	
97	1879	WB78-79	Estimate Year
